SUMMARY

ML Engineer and Data Scientist building production ML systems, LLM evaluation tooling, and analytics products. Completed a B.S. in Information Science at the University of South Florida in May 2026 and currently pursuing an M.S. in Artificial Intelligence at USF. Founder of Alloway LLC, with experience shipping applied ML, dashboards, and decision-support software across sports analytics, fintech, cybersecurity, and AI evaluation workflows.

TECHNICAL SKILLS

Languages: Python, SQL, TypeScript, JavaScript, R, Bash

ML / AI: Scikit-learn, XGBoost, PyTorch, TensorFlow, NLP, LLM-as-judge audits, prompt-injection evaluation, model evaluation, calibration, forecasting

Data / Analytics: Pandas, NumPy, Tableau, Power BI, statistical analysis, experimentation, dashboarding

Backend / Infra: FastAPI, React, Node.js, PostgreSQL, SQLite, Redis, Docker, Git, GitHub Actions, AWS

Domain Experience: AI evaluation, sports analytics, blockchain analytics, fraud detection, decision-support systems

EXPERIENCE

Founder & Data Consultant, Alloway LLC

July 2023 - Present | Morgantown, WV

Data Auditor / AI Engineer, Omniichain

Jan 2020 - Dec 2024 | Remote

Sales & Purchasing Manager, IT Parts and Spares Ltd.

Sept 2018 - Aug 2020 | Miami/Fort Lauderdale, FL

Task Force Manager, Hilton Hotels

Aug 2020 - Sept 2023 | Tampa, FL

PROJECTS

juryrig: Zero-dependency Python toolkit for auditing LLM-as-judge pipelines across position bias, verbosity bias, prompt-injection susceptibility, self-consistency, judge panels, and calibration scoring. Python. <https://github.com/ianalloway/juryrig>

AI Advantage Sports: Sports analytics platform with ML predictions, Kelly-based bet sizing, and live product workflows for NBA use cases. React, Python, XGBoost. <https://aiadvantagesports.com>

nba-ratings: Reusable Elo, win-probability, and Kelly-sizing library for NBA-style models; designed as installable evaluation primitives. Python. <https://github.com/ianalloway/nba-ratings>

NBA CLV Dashboard: FastAPI and Chart.js dashboard for calibration, rolling accuracy, and CLV-style evaluation reporting. Python, FastAPI, Chart.js. <https://github.com/ianalloway/nba-clv-dashboard>

Sports Betting ML: Applied NBA/NFL modeling project using logistic regression, XGBoost, and ensemble methods for edge detection. Python, XGBoost. <https://huggingface.co/spaces/ianalloway/sports-betting-ml>

kelly-js: TypeScript package for Kelly sizing, odds conversion, and bankroll math in lightweight decision-support workflows. TypeScript, npm. <https://github.com/ianalloway/kelly-js>

Repo Health: CLI that scores repository quality across README quality, CI, licensing, staleness, and maintenance indicators. Python CLI. <https://github.com/ianalloway/repo-health>

OPEN SOURCE

OpenClaw: Contributor to the OpenClaw AI agent framework, including bug fixes, skill-system improvements, and published agent skills on ClawHub. <https://github.com/openclaw/openclaw>

EDUCATION

M.S. Artificial Intelligence, University of South Florida

In Progress

B.S. Information Science, University of South Florida

Completed May 2026

CERTIFICATIONS

Deep Learning Specialization (Andrew Ng, Coursera)

Machine Learning Engineering (Google Cloud)

AWS Certified Cloud Practitioner

Blockchain Fundamentals (UC Berkeley)

Oracle Database SQL Certified Associate

Tableau Desktop Certified Professional
